Did you know this is the second week for Fair Trade fortnight? Do you know what Fair Trade means? Read on to find out...

Fairtrade means better prices, good working conditions and improvement to sustainability.

Buying Fairtrade products means that there are agreed terms and pricing for both farmers and workers in developing countries.

1 in 3 bananas in Britain are Fairtrade, but there's plenty more that we can do to ensure people get what they deserve to earn.

So, when your next out shopping, have a look for this symbol on the packaging – if you see it, this means it's Fairtrade and the Farmers get paid what they should for the product they've produced.
